

User's Manual for Cavilon Cut Prevention

1. About Cavilon

Cavilon is a durable barrier cut prevention and a concentrated cut prevention application that:

- **protects red and strongly irritated skin by providing a long lasting barrier;**
- **provides moisture to dry skin;**
- **allows adhesive products to stick to the skin by increasing the adherence of some adhesive products as medical tapes (such as Steri-strip, adhesive dressing) and/or surgical glue**

2. Protocol in Boxing Competitions

2.1. Protocol

- **A two grams single dose pack of Cavilon will be given to each Boxer's Coach for an IMMEDIATE**
- **application with examination gloves on the Boxer's face after the Daily Weigh-In.**
- **The daily pass for entering the Bout will not be provided if Cavilon has not been administered under the control of Officials. The Coach should necessarily wear examination gloves when**

Cavilon is applied on the Boxer's face.

2.2. First Application

- **The Boxer's face should be gently and thoroughly cleaned to make it dry (which will increase Cavilon's efficiency)**
- **Cavilon should be applied sparingly to cover each exposed area of the Boxer's face such as:**

(1) Over eyebrows

(2) Infra orbital area and malar bone

(3) Front and supra orbital area

(4) Under eyebrow (but avoiding the inside of the eyes)

(5) Nose bridge

(6) All the face and scalp

- **When all exposed areas are covered, the layer should be made more even by using a finger to cover the entire face until the limit of the scalp.**

2.3. Second Application

- At least half an hour before the beginning of the Bout, the Coach must go to the Equipment Manager to be provided with a single use dose pack of Cavilon to be applied as above.
- When this is done, the Equipment Manager will give the Coach the boxing equipment as required.

3. DO's and DON'Ts

	Dos	DON'Ts
BEFORE APPLYING CAVILON	WEAR GLOVES AND CAREFULLY WIPE SKIN CLEAN	APPLY WITHOUT GLOVES, FAIL TO CLEAN SKIN
